CARE GUIDANCE

Caring for your QJ surface

From QJ

- Everyday cleaning: wipe with mild soap and warm water.
- QJ quartz requires no sealing when cut, and no conditioning or polishing.
- QJ surfaces are heat and stain resistant.
- QJ stones contain anti-bacterial enhancements.

Good habits (draft for QJ approval)

- Wipe up spills promptly rather than letting them dry.
- Use trivets and hot pads under pans straight from the stove or oven.
- Use a chopping board rather than cutting directly on the surface.
- Avoid harsh chemicals such as paint removers, oven cleaners and bleach.

Guarantee

QJ products come with a 10 year manufacturer's guarantee.
