DRAFT FOR QJ APPROVAL

Fabrication and installation notes

This is a placeholder structure. QJ's approved fabrication and installation guidance replaces it before launch.

Material

- Standard slabs: 3200 x 1600 mm.
- Standard thickness: 12, 20 and 30 mm.
- 20 and 30 mm can be cut to a designated size.

Sections for QJ to complete

- Slab storage and handling
- Cutting and edge profiles
- Cut-outs, joints and support
- Site preparation and installation sequence
